

# The Circus is in Town

Every child loves the circus! This circus tent will provide hours of imaginative fun for any girl or boy. It sets up easily over a card table. The pattern includes instructions to make a convenient storage box from foam core board, that not only holds the circus tent when not in use, but when in use, it acts as a support for the peaked tent's roof. The tent has a opening curtain, window with a shade that folds up, held in place with Velcro®, scalloped trim along the top of the appliquéd walls and topped with a flag.

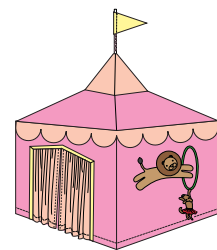

Tent and box are **designed for woven fabrics** such as cotton and cotton types. Also for Appliqués: Felt.
